

RISHABH KUMAR

Full Stack Web Developer (MERN)

+91 9572863162 • rishabhkumar6592@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

SUMMARY

Full stack web developer skilled in the MERN stack, with hands-on production experience building a Super Admin dashboard during a software engineering internship, plus independent full-stack projects covering AI-assisted healthcare-resource tracking, real-time systems, and collaborative tools. Comfortable owning a feature end-to-end, from UI to database.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Design, Socket.IO (WebSockets)

Database: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel/Render

WORK EXPERIENCE

Software Engineer Intern | Wyreflow Technologies, Bengaluru Dec 2024 – Mar 2025

- Built the frontend of Hiremi, a job-search platform, and its Super Admin panel end-to-end using React.js and Tailwind CSS, translating client requirements into responsive, production-ready UI components.
- Implemented feature updates driven by client feedback and market research, improving admin workflow usability across multiple panel modules.
- Collaborated with backend and design teams to ship UI changes on sprint deadlines.

PROJECTS

SanjeevaniGrid — Bihar Health Resource Network [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Recharts, JWT, Google OAuth, Razorpay

- Built a full-stack healthcare-access platform tracking live bed & doctor availability across 55+ public hospitals spanning all 38 districts of Bihar, with an AI-assisted occupancy forecast and hospital-matching suggestion.
- Engineered dual-role authentication (admin and patient/public) with JWT and Google OAuth, and integrated Razorpay payments with server-side signature verification for OPD registration.
- Built an admin console with live KPI overview, occupancy trend & forecast charts (Recharts), a patient registry, teleconsultation log, and shortage alerts; patients can search hospitals and book video teleconsultations.

Hiremi - Super Admin Dashboard [Live](#)

Tech Stack: React.js, Tailwind CSS, HTML, CSS, JavaScript

- Designed and developed the frontend of a live Super Admin dashboard for a job-search platform, building reusable, dynamic UI components.
- Integrated dynamic data tables, filters, and charts into the admin panel to give a real-time view of platform activity, with a focus on responsive design across devices.

KRN Code — Collaborative Online Code Editor [Live](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a browser-based, real-time collaborative code editor supporting multiple simultaneous users writing and executing code in a shared session.

Real-Time Chat Application [GithubLink](#)

Tech Stack: Node.js, Express.js, Socket.IO, EJS

- Developed a real-time messaging application using WebSocket-based communication (Socket.IO) for instant, bidirectional message delivery across multiple concurrent users.

Todo List App [Live](#)

Tech Stack: React.js

- Built a task management app with full CRUD operations and the ability to pin tasks, optimized for performance and UX using component-based architecture in React.js.

EDUCATION

Bachelor of Technology July 2021 – July 2025

Rajiv Gandhi Proudtyogiki Vishwavidyalaya, Bhopal • CGPA: 7.96

CERTIFICATIONS

- Full Stack Web Developer — Sheryians Coding School
- IBM SkillsBuild Hackathon Challenge — Participant, 2023
